Anglais B1

NOLAN HOARAU

Second-year student in the Network & Telecom BUT program looking for a work-study position starting in September 2026

EXPERIENCES

BUT R&T (NETWORK & TELECOM)

2024 - 2027

COLMAR UNIVERSITY OF TECHNOLOGY (IUT)

- Deployment of network and system infrastructure; server administration. Frame analysis, routing, and configuration of equipment (switches, routers, etc.).
- Signal analysis, transmission, VoIP, and communication.
- Programming languages and data management. Website and web application development.

PROJECT: BUILD A NETWORK ON GNS3

Modeling on GNS3 and deploying a multi-VLAN network with inter-VLAN routing and securing switch ports by configuring services (FTP, Apache, rsync) and implementing ACL rules for HTTP and ICMP filtering and access control, using the RIP v2 protocol for dynamic routing.

PISCINE 42

Juillet - Aout 2024

MULHOUSE FONDERIE CAMPUS

- Learning the C programming language
- Bash shell (Linux)
- Git tool

STI2D SIN HIGH SCHOOL DIPLOMA

2021 - 2024

LYCÉE BLAISE PASCAL COLMAR

Specialization in Information Systems and Digital Technology:

- Programming and Analysis of Electronic and Computer Systems
- Expertise in Microcontroller Architecture
- Communication Protocols and Signal Processing
- Programming (Arduino C, Python)
- Digital and Analog Electronics
- Network and IoT Management

HOBBIES
